DESCRIPTION

This project provides for a Civic Building as part of the Silver Spring Redevelopment project. The Civic Building will be a focal point for County services and community events. Managed and scheduled by the County government and the Community Use of Public Facilities, the building will provide community meeting space to replace space which was provided by the Armory, a multi-media resource center, and office space for the Regional Services Center staff. The Civic Building will be located adjacent to the proposed Veterans' Plaza, which will provide outdoor space for community events. This project is part of a multi-project effort by Montgomery County to support the retail-oriented redevelopment of the Silver Spring Central Business District (CBD), a total public commitment of \$191.2 million.

JUSTIFICATION

This Civic Building is required to provide permanent office space for the Regional Services Center (RSC) staff which was relocated to leased space in the core of the Central Business District in FY98, and to provide community meeting space that was eliminated when the Silver Spring Armory was demolished as part of the Silver Spring Redevelopment Project. The 1995 Regional Services Center Facilities Strategic Plan supports the need for a center in the region. The costs shown are based on a space requirements study conducted by the Division of Capital Development in consultation with County staff and the local community. The Program of Requirements has been developed and has been finalized based on comments received from the community and the Council's Planning, Housing and Economic Development committee.

FISCAL NOTE

Expenditures and funding were adjusted to reflect the current production schedule.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
- The Executive asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
